

Application # _____

**TOWN OF PLAINFIELD
INLAND WETLAND AND WATERCOURSES COMMISSION
APPLICATION FOR PERMIT**

Any person seeking a permit to conduct a regulated activity as defined in the Plainfield Inland Wetland and Watercourses Regulations must submit this application, the required application fee and any accompanying plans, documentation and/or information required by the Inland Wetlands and Watercourses Regulations, no later than 10 days prior to the next regular meeting of the Commission. Regular meetings are held on the third Tuesday of each month.

If the Commission or its agent determines that a significant impact may occur as a result of the proposed activity, the applicant may be required to submit additional information as outlined in Section 8.5 of the Regulations.

Along with a completed application, the applicant shall submit a site plan showing existing and proposed conditions in relation to wetlands and watercourses and proposed erosion and sediment control measures. Also attach a list of abutting property owners, including those across any streets.

If applicant is not the owner, indicate applicant's interest in the land _____

Map _____ Block _____ Lot _____ Total acreage of the site _____

Location of Property _____

Wetland/Watercourse Area Altered _____

Upland Area Altered _____

Description of the proposed Activity _____

Description of the area to be affected by the proposed activity, including: soil types, topography, vegetation and proposed land use. _____

Amount and type of material proposed to be removed or deposited and depth of excavation or filling. Indicate areas where discharge into wetlands or watercourses is proposed. _____

Description of proposed erosion and sediment control measures. _____

Alternatives considered by the applicant and why the proposed activity was chosen over other alternatives. _____

The applicant must certify whether:

- a. Any portion of the property on which the regulated activity is proposed is located within 500 feet of the boundary of an adjoining municipality.
- b. A significant portion of the traffic to the completed project on the site will use streets within the adjoining municipality to enter and exit the site.
- c. A significant portion of the sewer and water drainage from the project site will flow through and significantly impact the sewage or drainage system within the adjoining municipality; or
- d. Water run-off from the improved site will impact the streets or other municipal or private property within the adjoining municipality.

If any portion of the wetland or watercourse is located within 500 feet of the boundary of the adjoining municipality, the applicant must give written notice to the Wetland Agency of the adjoining municipality in accordance with Section 9.3 of the Inland Wetlands and Watercourses Regulations.

When an application is filed to conduct or cause to be conducted a regulated activity upon an inland wetland or watercourse, any portion of which is within the watershed of a water company as defined in CGS 16-1, as amended, the applicant shall provide written notice of the application in accordance with section 9.5 of the Inland Wetland and Watercourses Regulations.

Applicant Certification: The information provided in this application and the accompanying materials is true and accurate to the best of my knowledge. I am aware of the penalties for obtaining a permit through deception, inaccurate or misleading information. I hereby authorize the Inland Wetland and Watercourses Commission and its agents to inspect the subject property, at reasonable times, both before and after a formal decision is made and during the term of the permit.
