Celebrate the Older American's Month theme of "Connect, Create, Contribute" through this example of how simple it is to incorporate walking in your day, every day, at every age. This half-mile gravel and wooden bridge trail loop begins at the back of the parking lot and was recently improved as part of an Eagle Scout project with interesting opportunities to learn more about nature along the path (plus a few added treasures for this event). The Children's Discovery Trail is an exciting adventure for children of **all ages**. This Senior Resources HealthQuest walk is part of the The Last Green Valley Spring Outdoors event and is **open to the public**. Friendly dogs on leash welcome outside of buildings.
